

Eurocrypt 2020 Rump Session - Practice Session

IACR Awards Ceremony

Next: Eurocrypt 2020 Rump Session

Eurocrypt 2020 Rump Session

WELCOME
to the first ever virtual rump session!

We hope you are all well and safe!

Thank you to Anne & Yuval and Kay & Kevin for making this possible!

10 Advantages of a virtual conference/ rump session

1. You don't have to take a 10 hour flight to join
2. You can't be ripped off by the taxi driver on the way from the airport
3. You can't get lost on the way to the conference
4. You can't lose your nametag on the first day of the conference
5. You can't run into someone who lost their nametag on the first day of the conference
6. You can't fall off the stage
7. You don't have to wait in line for the restroom
8. You have free choice over food and drinks
9. You can fall asleep without being noticed
10. You can leave at anytime

Also, we are pretty sure Zagreb would be like this...

And we would look like this...

So, instead, sit back...

...relax and enjoy...

(And if the dog pictures didn't cheer you up yet, we hope the next two hours will...)

Rump session protocol

1. Speakers will be/have been promoted from attendees to panelists. Please click “raise hand”, or message the hosts via chat.
2. The speakers will share their screens during their talks.
3. If you are the speaker, we will give you a signal 30 seconds before the end of your talk. If you are running too much over time, we might mute you.
4. One of us will remind the next speaker to be ready.

If you have any questions, contact us using chat/Zulip/email.

Question 6 (Bonus Question)

Advice about keeping secrets: it's a lot easier if you don't know them in the first place.

Are you the Keymaster?

My voice is my passport. Verify Me.

Someone didn't bother reading my carefully prepared memo on commonly-used passwords.

I specialize in a very specific type of security, subconscious security.

That's amazing. I've got the same combination on my luggage.

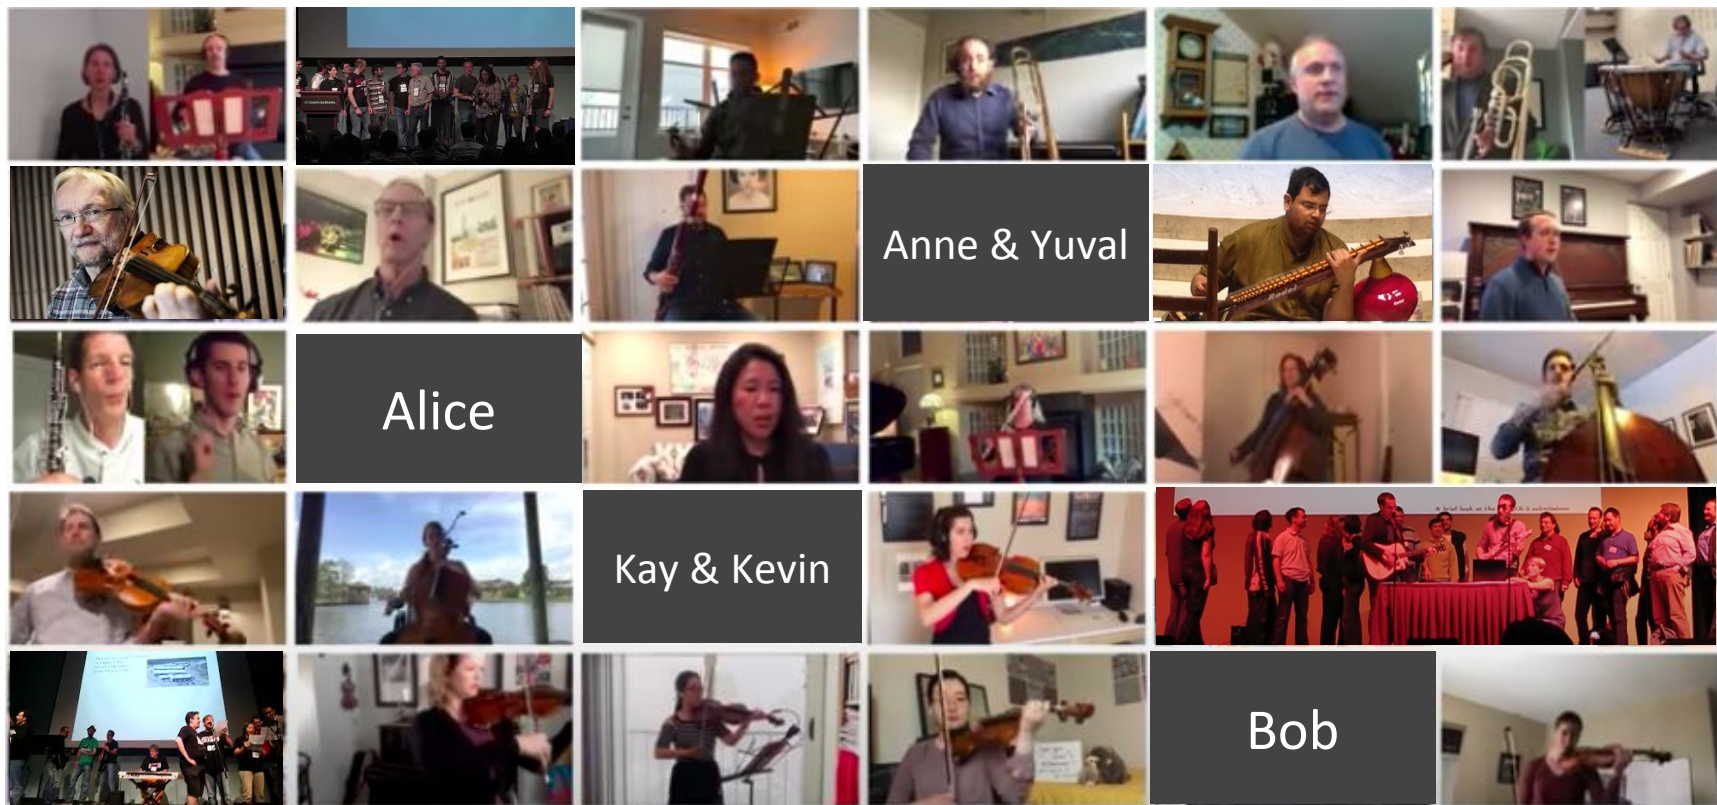

We're not computers, Sebastian, we're physical.
