

Join us at Jane Street's upcoming Estimathon!

Do you know how many computers were connected to the Internet on January 1, 1989? Or how many YouTube videos have more than 1 billion views? What about the bandwidth beneath the Atlantic Ocean?

If you want to solve problems like these, join us at our upcoming **Estimathon** — a team-based contest that combines trivia, game theory, and mathematical thinking. Participants will be placed in teams and tasked with solving 13 estimation problems in just 30 minutes.

After the Estimathon concludes, stick around to chat with a couple Streeters to learn more about the firm's work and opportunities.

Thursday, August 20
6:00 PM - 7:30 PM

Boston University
Computing & Data Sciences (CDS) Building
17th Floor
